# You Can Help Replace and Restore

On September 7, 2011, a crane being used to assess and repair earthquake damage to the Cathedral suddenly fell over. The massive machinery severely damaged the historic Herb Cottage and its garden and the stone wall and Norman Arch surrounding the Bishop's Garden. Many specimen trees and plantings within the garden were decimated and could not be saved.

## Replace and Restore

It is impossible to replace these mature shrubs, boxwood and trees as they were, but new specimens can be installed in the Garden with your help. Out of this misfortune springs a wonderful opportunity for rejuvenation. Prior to the earthquake, the Guild was formulating plans to renew areas of the Bishop's Garden. Hundreds of archival plans, drawings and written materials are being reviewed, so that choices made by the AHG Garden Committee will follow the intent and direction of Frederick Law Olmsted, Jr., Florence B. Bratenahl and Bishop Henry Yates Satterlee when they conceived a *Garden for the Ages* so long ago.

## Participate

Help us restore what was lost in this treasured medieval-style garden. Donations for general landscape renewal and restoration are greatly appreciated. Memorial donations will be recorded in the Guild's *Book of Remembrance* kept in the Cathedral. For more information about memorial opportunities, contact Louise Beale: 301 951-3913 or [lrbeale@aol.com](mailto:lrbeale@aol.com)
